

Robeco Global Consumer Trends DH EUR

Robeco Global Consumer Trends is an actively managed fund that invests in stocks in developed and emerging countries across the world. The selection of these stocks is based on fundamental analysis. The fund's objective is to achieve a better return than the index. The fund invests in a number of structural growth trends in consumer spending. The first is the "digital transformation of consumption". The second trend is that of the "rise of the middle class". The third trend focuses on the increasing importance of "health & wellbeing". The fund managers aim to select stocks of the structural winners within these trends.

Performance

Indexed value (until 31-08-2025) - Source: Robeco

Performance

Based on transaction prices, the fund's return was 1.70%.

Robeco Global Consumer Trends performed in line with the index last month. Our Digital Transformation theme underperformed in August, but was offset by strength in Health and Wellbeing as well as Rise of the Middle Class. NVIDIA slipped despite strong results, while rotation favored Apple and Alphabet over Meta and Microsoft. IDEXX, Galderma and Sea outperformed, though Alcon and Coinbase weighed, highlighting diverging sector dynamics.

Portfolio changes

Portfolio changes in August were limited. We exited Beiersdorf after weak results and reduced margin guidance. A new position was initiated in TSMC, given its dominance in advanced chip manufacturing and strategic role across key technologies. We also trimmed Netflix after strong gains and lowered O'Reilly Automotive following tariff-related valuation adjustments.

Market development

At Jackson Hole, debate focused on whether labor market softness justifies a September rate cut, despite inflation remaining elevated and fiscal deficits widening. Political pressure on the Federal Reserve, including the dismissal of a governor, raises concerns over credibility and borrowing costs. Yet markets remain buoyant, with US indices hitting fresh highs even as global peers outperform.

Expectation of fund manager

Given the uncertain macro and geopolitical climate, our quality growth style seems well suited for the current investment climate. We believe long-term investors should focus on high quality businesses with valuable intangible assets, high margins, and superior returns on capital. Companies with these traits have historically delivered above average returns while offering downside protection. These firms are also poised to deliver healthy revenue and earnings growth, and we expect them to generate attractive long-term returns as a result. We believe premium valuations for these businesses are justified given the quality of their business models, the high levels of earnings growth and the sustainability of their franchises.

Top 10 largest positions

The top five largest positions for the month are NVIDIA, Microsoft, Netflix, Meta Platforms and Amazon.

Fund price

31-08-25	EUR	156.64

Asset Allocation

Asset allocation		
Equity		97.4%
Cash		2.6%

Sector allocation

The fund invests in companies exposed to structural growth trends in consumer spending. As a result, the portfolio is invested mostly in the consumer discretionary, consumer staples, technology and communication services sectors. The fund may also invest in sectors that may appear to be not directly linked to consumption.

Sector allocation			Deviation index	
Communication Services	<div><div></div></div>	22.9%	<div><div></div></div>	14.1%
Consumer Discretionary	<div><div></div></div>	18.9%	<div><div></div></div>	8.4%

ESG Important information

The sustainability information in this factsheet can help investors integrate sustainability considerations in their process. This information is for informational purposes only. The reported sustainability information may not at all be used in relation to binding elements for this fund. A decision to invest should take into account all characteristics or objectives of the fund as described in the prospectus. The prospectus is available on request and free of charge on the Robeco website.

Sustainability

The fund incorporates sustainability in the investment process through exclusions, ESG integration, engagement and voting. The fund does not invest in issuers that are in breach of international norms or where activities have been deemed detrimental to society following Robeco's exclusion policy. Financially material ESG factors are integrated in the bottom-up investment analysis to assess existing and potential ESG risks and opportunities. In the stock selection the fund limits exposure to elevated sustainability risks. The fund targets at least 20% lower carbon footprint compared to the reference index. In addition, where a stock issuer is flagged for breaching international standards in the ongoing monitoring, the issuer will become subject to engagement. Lastly, the fund makes use of shareholder rights and applies proxy voting in accordance with Robeco's proxy voting policy. For more information please visit the sustainability-related disclosures. The index used for all sustainability visuals is based on MSCI All Country World Index (Net Return, hedged into EUR).

Sustainalytics ESG Risk Rating

The Portfolio Sustainalytics ESG Risk Rating chart displays the portfolio's ESG Risk Rating. This is calculated by multiplying each portfolio component's Sustainalytics ESG Risk Rating by its respective portfolio weight. The Distribution across Sustainalytics ESG Risk levels chart shows the portfolio allocations broken into Sustainalytics' five ESG risk levels: negligible (0-10), low (10-20), medium (20-30), high (30-40) and severe (40+), providing an overview of portfolio exposure to the different ESG risk levels. Index scores are provided alongside the portfolio scores, highlighting the portfolio's ESG risk level compared to the index. Only holdings mapped as corporates are included in the figures.

Environmental Footprint

Environmental footprint expresses the total resource consumption of the portfolio per mUSD invested. Each assessed company's footprint is calculated by normalizing resources consumed by the company's enterprise value including cash (EVIC). We aggregate these figures to portfolio level using a weighted average, multiplying each assessed portfolio constituent's footprint by its respective position weight. For comparison, index footprints are shown besides that of the portfolio. The equivalent factors that are used for comparison between the portfolio and index represent European averages and are based on third-party sources combined with own estimates. As such, the figures presented are intended for illustrative purposes and are purely an indication. Only holdings mapped as corporates are included in the figures.

SDG Impact Alignment

This distribution across SDG scores shows the portfolio weight allocated to companies with a positive, negative and neutral impact alignment with the Sustainable Development Goals (SDG) based on Robeco’s SDG Framework. The framework utilizes a three-step approach to assess a company’s impact alignment with the relevant SDGs and assign a total SDG score. The score ranges from positive to negative impact alignment with levels from high, medium or low impact alignment. This results in a 7-step scale from -3 to +3. For comparison, index figures are provided alongside that of the portfolio. Only holdings mapped as corporates are included in the figures.

Source: Robeco. Data derived from internal processes.

Engagement

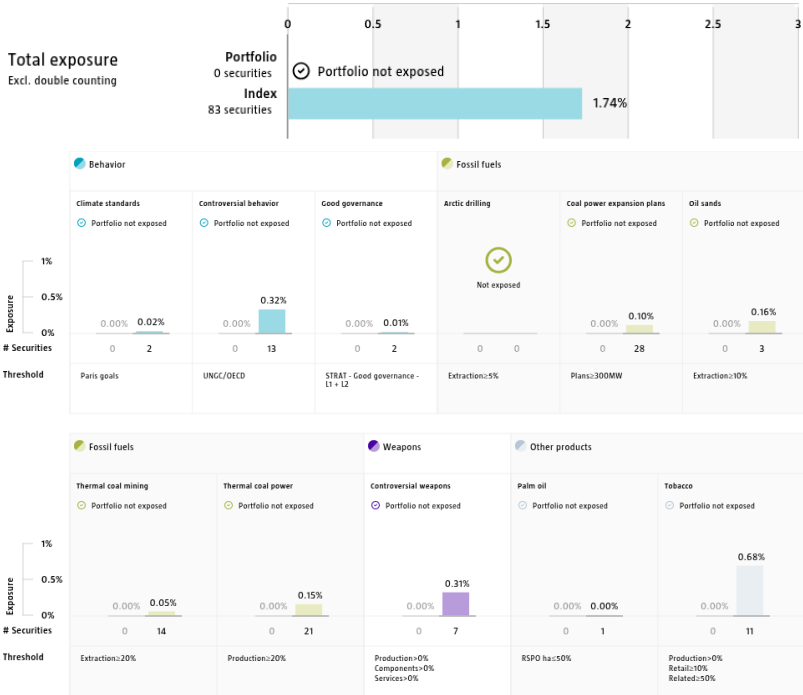

Robeco distinguishes between three types of engagement. Value Engagement focuses on long-term issues that are financially material and/or are causing adverse sustainability impacts. The themes can be broken into Environmental, Social, Governance, or Voting-related. SDG Engagement aims to drive a clear and measurable improvement in a company’s SDG contribution. Enhanced engagement is triggered by misconduct and focuses on companies severely breaching international standards. The report is based on all companies in the portfolio for which engagement activities have taken place during the past 12 months. Note that companies may be under engagement in multiple categories simultaneously. While the total portfolio exposure excludes double counting, it may not equal the sum of individual category exposures.

	Portfolio exposure	# companies engaged with	# activities with companies engaged with
Total (* excluding double counting)	49.88%	22	85
Environmental	3.81%	3	6
Social	9.27%	3	9
Governance	8.02%	3	20
Sustainable Development Goals	33.30%	15	50
Voting Related	0.00%	0	0
Enhanced	0.00%	0	0

Exclusions

The Exclusions charts display the degree of adherence to exclusion applied by Robeco. For reference, index exposures are shown beside that of the portfolio. Thresholds are based on revenues unless otherwise indicated. For more information about the exclusion policy and which level applies, please refer to the Exclusion Policy and Exclusion List available on Robeco.com.

Investment policy

Robeco Global Consumer Trends is an actively managed fund that invests in stocks in developed and emerging countries across the world. The selection of these stocks is based on fundamental analysis. The fund's objective is to achieve a better return than the index. The fund invests in a number of structural growth trends in consumer spending. The first is the "digital transformation of consumption". The second trend is that of the "rise of the middle class". The third trend focuses on the increasing importance of "health & wellbeing". The fund managers aim to select stocks of the structural winners within these trends.

The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to normative, activity-based and region-based exclusions, proxy voting and engagement.

Fund manager's CV

Jack Neele is Portfolio Manager of the Robeco Global Consumer Trends strategy and member of the Thematic Investing team. Jack started his career in the investment industry in 1999 and prior to joining Robeco, he was a Global Equity Portfolio Manager at Fortis MeesPierson. He holds a Master's in Econometrics from Erasmus University Rotterdam and is a Certified European Financial Analyst. Richard Speetjens is Portfolio Manager of Robeco Global Consumer Trends strategy and member of the Thematic Investing team. He is also Deputy Head of Thematic Investing. He has managed the strategy since December 2010. He joined Robeco as a Portfolio Manager European Equities in 2007. Previously, Richard was Portfolio Manager European Equities at Van Lanschot Asset Management and at Philips Investment Management. Richard holds a Master's in Business Economics and Finance from Maastricht University and is a CFA® Charterholder.

Fiscal product treatment

The fund is established in Luxembourg and is subject to the Luxembourg tax laws and regulations. The fund is not liable to pay any corporation, income, dividend or capital gains tax in Luxembourg. The fund is subject to an annual subscription tax ("tax d'abonnement") in Luxembourg, which amounts to 0.05% of the net asset value of the fund. This tax is included in the net asset value of the fund. The fund can in principle use the Luxembourg treaty network to partially recover any withholding tax on its income.

Fiscal treatment of investor

The fiscal consequences of investing in this fund depend on the investor's personal situation. For private investors in the Netherlands real interest and dividend income or capital gains received on their investments are not relevant for tax purposes. Each year investors pay income tax on the value of their net assets as at 1 January if and inasmuch as such net assets exceed the investor's tax-free allowance. Any amount invested in the fund forms part of the investor's net assets. Private investors who are resident outside the Netherlands will not be taxed in the Netherlands on their investments in the fund. However, such investors may be taxed in their country of residence on any income from an investment in this fund based on the applicable national fiscal laws. Other fiscal rules apply to legal entities or professional investors. We advise investors to consult their financial or tax adviser about the tax consequences of an investment in this fund in their specific circumstances before deciding to invest in the fund.
