

Robeco FinTech D EUR

Robeco FinTech is an actively managed fund that invests in stocks in developed and emerging countries. The selection of these stocks is based on fundamental analysis. The fund's objective is to achieve a better return than the Benchmark. Proprietary valuation models are used to select stocks with good earnings prospects and a reasonable valuation and those companies which benefit from the increasing digitization of the financial sector are included. These are individually assessed on the basis of industry trend analysis, in-depth discussions with corporate management, analysts and industry experts.

Performance

Indexed value (until 31-08-2025) - Source: Robeco

Performance

Based on transaction prices, the fund's return was 0.64%.

The fund outperformed its reference index in August. Payments drove the strongest gains, followed by Financial Management and Financial Infrastructure, while Data & Analytics and Digital Assets lagged. Top contributors included Nu Holdings, Shopify, StoneCo and Wise, while Coinbase, Intuit, Transunion and Tradeweb weighed. Banks and IT Services added positively.

Market development

Global equities extended gains in August, supported by strong earnings momentum and ample liquidity. The FinTech fund outperformed, as most holdings delivered better than expected results. With earnings surprises widespread and growth outlooks robust, confidence remains high that FinTech companies can sustain strong performance through the remainder of the year.

Expectation of fund manager

FinTech continues to show strength into 2025, with key trends emerging: alternative payment methods, capital markets activity, and AI agents going mainstream. Alternative payment methods, such as digital wallets and buy-now-pay-later, are gaining share, with companies such as Adyen and PayPal leading the charge. Capital markets are heating up, with FinTech IPOs and private funding expected to surge. Klarna and Chime Financial have already submitted confidential filings for IPOs. AI agents are providing advanced financial infrastructure solutions, with companies such as nCino and Workday integrating AI into their operations. With the growth outlook intact, and valuations still very reasonable after a volatile 2024, we conclude by saying that FinTech is a better long-term investment opportunity in 2025 than at any time since we launched.

Top 10 largest positions

The five largest positions in the fund are Tencent, Nu Holdings, S&P Global, Hundsun Technologies and PayPal.

Fund price

31-08-25	EUR	190.44

Sector allocation

The fund does not have a sector allocation policy. The fund invests in three different segments that benefit from the digitization of the financial sector, and focuses on the fintech long-term growth investment universe. It invests in three distinct segments, labelled as winners, challengers and enablers. Winners are well-established companies that clearly stand out from their peers. Challengers are younger, less-established companies that have the potential to become tomorrow's winners. Enablers are companies that help the financial industry to develop and implement technology.

Regional allocation

The fund currently has over 60% of its investments in the US, which is the dominant country for listed fintech equity investments, but over time we expect China, India and other emerging markets next to Europe to gain importance. We have defined a proprietary fintech universe with companies exposed to payments, distributed ledger technology, regtech, insurtech, personal finance, security, wealth management, electronic trading, big data, etc.

ESG Important information

The sustainability information in this factsheet can help investors integrate sustainability considerations in their process. This information is for informational purposes only. The reported sustainability information may not at all be used in relation to binding elements for this fund. A decision to invest should take into account all characteristics or objectives of the fund as described in the prospectus. The prospectus is available on request and free of charge on the Robeco website.

Sustainability

The fund incorporates sustainability in the investment process through exclusions, ESG integration, engagement and voting. The fund does not invest in issuers that are in breach of international norms or where activities have been deemed detrimental to society following Robeco's exclusion policy. Financially material ESG factors are integrated in the bottom-up investment analysis to assess existing and potential ESG risks and opportunities. In the stock selection the fund limits exposure to elevated sustainability risks. In addition, where a stock issuer is flagged for breaching international standards in the ongoing monitoring, the issuer will become subject to engagement. Lastly, the fund makes use of shareholder rights and applies proxy voting in accordance with Robeco's proxy voting policy.

For more information please visit the sustainability-related disclosures.

The index used for all sustainability visuals is based on MSCI All Country World Index (Net Return, EUR).

Sustainalytics ESG Risk Rating

The Portfolio Sustainalytics ESG Risk Rating chart displays the portfolio's ESG Risk Rating. This is calculated by multiplying each portfolio component's Sustainalytics ESG Risk Rating by its respective portfolio weight. The Distribution across Sustainalytics ESG Risk levels chart shows the portfolio allocations broken into Sustainalytics' five ESG risk levels: negligible (0-10), low (10-20), medium (20-30), high (30-40) and severe (40+), providing an overview of portfolio exposure to the different ESG risk levels. Index scores are provided alongside the portfolio scores, highlighting the portfolio's ESG risk level compared to the index.

Only holdings mapped as corporates are included in the figures.

Environmental Footprint

Environmental footprint expresses the total resource consumption of the portfolio per mUSD invested. Each assessed company's footprint is calculated by normalizing resources consumed by the company's enterprise value including cash (EVIC). We aggregate these figures to portfolio level using a weighted average, multiplying each assessed portfolio constituent's footprint by its respective position weight. For comparison, index footprints are shown besides that of the portfolio. The equivalent factors that are used for comparison between the portfolio and index represent European averages and are based on third-party sources combined with own estimates. As such, the figures presented are intended for illustrative purposes and are purely an indication. Only holdings mapped as corporates are included in the figures.

SDG Impact Alignment

This distribution across SDG scores shows the portfolio weight allocated to companies with a positive, negative and neutral impact alignment with the Sustainable Development Goals (SDG) based on Robeco’s SDG Framework. The framework utilizes a three-step approach to assess a company’s impact alignment with the relevant SDGs and assign a total SDG score. The score ranges from positive to negative impact alignment with levels from high, medium or low impact alignment. This results in a 7-step scale from -3 to +3. For comparison, index figures are provided alongside that of the portfolio. Only holdings mapped as corporates are included in the figures.

Source: Robeco. Data derived from internal processes.

Engagement

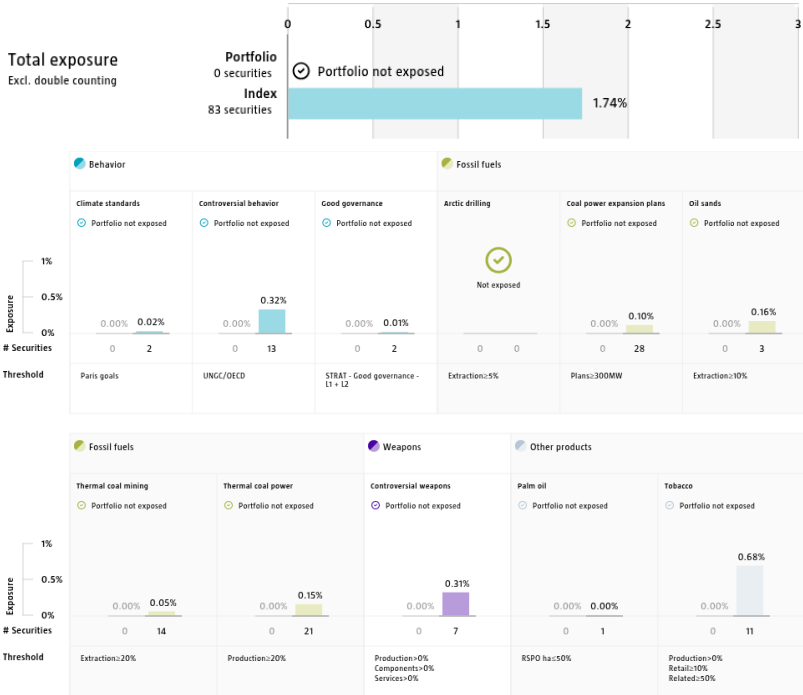

Robeco distinguishes between three types of engagement. Value Engagement focuses on long-term issues that are financially material and/or are causing adverse sustainability impacts. The themes can be broken into Environmental, Social, Governance, or Voting-related. SDG Engagement aims to drive a clear and measurable improvement in a company’s SDG contribution. Enhanced engagement is triggered by misconduct and focuses on companies severely breaching international standards. The report is based on all companies in the portfolio for which engagement activities have taken place during the past 12 months. Note that companies may be under engagement in multiple categories simultaneously. While the total portfolio exposure excludes double counting, it may not equal the sum of individual category exposures.

	Portfolio exposure	# companies engaged with	# activities with companies engaged with
Total (* excluding double counting)	18.37%	6	29
Environmental	0.00%	0	0
Social	4.54%	1	4
Governance	2.87%	1	8
Sustainable Development Goals	15.50%	5	17
Voting Related	0.00%	0	0
Enhanced	0.00%	0	0

Source: Robeco. Data derived from internal processes.

Exclusions

The Exclusions charts display the degree of adherence to exclusion applied by Robeco. For reference, index exposures are shown beside that of the portfolio. Thresholds are based on revenues unless otherwise indicated. For more information about the exclusion policy and which level applies, please refer to the Exclusion Policy and Exclusion List available on Robeco.com.

Investment policy

Robeco FinTech is an actively managed fund that invests in stocks in developed and emerging countries. The selection of these stocks is based on fundamental analysis. The fund's objective is to achieve a better return than the Benchmark. Proprietary valuation models are used to select stocks with good earnings prospects and a reasonable valuation and those companies which benefit from the increasing digitization of the financial sector are included. These are individually assessed on the basis of industry trend analysis, in-depth discussions with corporate management, analysts and industry experts.

The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions, proxy voting and engagement.

Fund manager's CV

Patrick Lemmens is Lead Portfolio Manager and member of the Thematic Investing team. He has a focus on financials/fintech. Prior to joining Robeco in 2008, he managed the ABN AMRO Financials fund from October 2003 to December 2007. Previously, he held the position of Analyst of Global Financials at ABN AMRO and was Global Sector Coordinator of the Financial Institutions Equities Group at ABN AMRO. Patrick Lemmens started his career in the investment industry in 1993. He holds a Master's in Business Economics from Erasmus University Rotterdam and is a Certified European Financial Analyst. Michiel van Voorst is Portfolio Manager and member of the Thematic Investing team. He has a focus on financials/fintech. In 2020, Michiel rejoined Robeco from Union Bancaire Privée in Hong Kong where he was CIO Asian Equities. Prior to that, Michiel spent 12 years at Robeco in several senior positions including portfolio manager Rolinco Global Growth fund and Robeco Asian Stars. Prior to joining Robeco in 2005, Michiel was Portfolio Manager US Equity at PGGM and Economist with Rabobank Netherlands. Michiel started his career in the investment industry in 1996. Michiel van Voorst holds a Master's in Economics from University of Utrecht and is a CFA® Charterholder. Koos Burema is Co-Portfolio Manager and member of the Thematic Investing team. He has a focus on financials/fintech. Koos was an Analyst with the Emerging Markets team covering Korea and technology in Taiwan and Mainland China. Besides this, he was responsible for the integration of ESG in the investment process. Before joining the team in January 2010, he worked as a Portfolio Manager for different sector teams within Robeco. He started his career in the industry in 2007. Koos holds a Master's in Business Administration from the University of Groningen and is a CFA® charterholder.

Fiscal product treatment

The fund is established in Luxembourg and is subject to the Luxembourg tax laws and regulations. The fund is not liable to pay any corporation, income, dividend or capital gains tax in Luxembourg. The fund is subject to an annual subscription tax ('tax d'abonnement') in Luxembourg, which amounts to 0.05% of the net asset value of the fund. This tax is included in the net asset value of the fund. The fund can in principle use the Luxembourg treaty network to partially recover any withholding tax on its income.

Fiscal treatment of investor

The fiscal consequences of investing in this fund depend on the investor's personal situation. For private investors in the Netherlands real interest and dividend income or capital gains received on their investments are not relevant for tax purposes. Each year investors pay income tax on the value of their net assets as at 1 January if and inasmuch as such net assets exceed the investor's tax-free allowance. Any amount invested in the fund forms part of the investor's net assets. Private investors who are resident outside the Netherlands will not be taxed in the Netherlands on their investments in the fund. However, such investors may be taxed in their country of residence on any income from an investment in this fund based on the applicable national fiscal laws. Other fiscal rules apply to legal entities or professional investors. We advise investors to consult their financial or tax adviser about the tax consequences of an investment in this fund in their specific circumstances before deciding to invest in the fund.
