

## Robeco Global Multi-Thematic D EUR

Robeco Global Multi-Thematic is an actively managed fund that invests worldwide in equities from developed and emerging countries. The selection of stocks is based on fundamental analysis. The strategy's objective is to achieve a better return than the MSCI ACWI Index. The fund invests in companies incorporating or exercising a major part of their economic activities in identified themes. These include transforming technologies, changing sociodemographic, and preserving earth. This is achieved by investing in firms that are well positioned to benefit from structural changes in the economy as well as companies contributing to solving nature-based problems, fulfilling basic societal needs and addressing inefficiencies.

### Performance

Indexed value (until 31-08-2025) - Source: Robeco

### Performance

Based on transaction prices, the fund's return was -0.95%.

Robeco Global Multi-Thematic Rolinco declined in August, with losses driven mainly by Transforming Technologies as investors sold off software and broader tech names. Fortinet, Globant, Coinbase, Microsoft and TSMC were notable laggards, while Alphabet, Palo Alto and Siemens provided some support. The Changing Sociodemographics and Preserving Earth themes both added positively, led by Sea, Nu Holdings, Novo Nordisk and CATL.

### Market development

Equities delivered a mixed yet positive performance in August, lifted by strong earnings but pressured late in the month by inflation concerns, softer labor data and profit-taking in crowded tech names. Elevated valuations and heavy positioning mean expectations are fragile, with earnings surprises driving outsized market reactions and keeping investors highly alert.

### Expectation of fund manager

Thematic funds target three megatrends: Transforming Technologies, Changing Socio-demographics, and Preserving Earth. Robeco Multi-Thematic invests across all three, focusing on seven key secular growth drivers. In 2025, Smart Enterprise should benefit from easing macro uncertainty and digital transformation. Clean Energy remains supported by grid upgrades and growing power demand. Healthcare Solutions thrive on aging populations and AI-driven innovations. Next Gen Financials gain from FinTech expansion and digital payments. Digital Infrastructure sees strong growth from AI, IoT, and 5G adoption. The New Consumer embraces immersive experiences and digital ecosystems. Natural Resource Stewardship benefits from water treatment and infrastructure development.

## Top 10 largest positions

The top five holdings of the fund are NVIDIA, Microsoft, TSMC, Amazon, and Alphabet.

## Fund price

31-08-25	EUR	297.07
High Ytd (23-01-25)	EUR	322.44
Low Ytd (08-04-25)	EUR	246.37

## Fees

ESG Important information

The sustainability information in this factsheet can help investors integrate sustainability considerations in their process. This information is for informational purposes only. The reported sustainability information may not at all be used in relation to binding elements for this fund. A decision to invest should take into account all characteristics or objectives of the fund as described in the prospectus. The prospectus is available on request and free of charge on the Robeco website.

Sustainability

The fund incorporates sustainability in the investment process through exclusions, ESG integration, engagement and voting. The fund does not invest in issuers that are in breach of international norms or where activities have been deemed detrimental to society following Robeco's exclusion policy. Financially material ESG factors are integrated in the bottom-up investment analysis to assess existing and potential ESG risks and opportunities. In the stock selection the fund limits exposure to elevated sustainability risks. In addition, where a stock issuer is flagged for breaching international standards in the ongoing monitoring, the issuer will become subject to engagement. Lastly, the fund makes use of shareholder rights and applies proxy voting in accordance with Robeco's proxy voting policy.

For more information please visit the sustainability-related disclosures.

The index used for all sustainability visuals is based on MSCI All Country World Index (Net Return, EUR).

Sustainalytics ESG Risk Rating

The Portfolio Sustainalytics ESG Risk Rating chart displays the portfolio's ESG Risk Rating. This is calculated by multiplying each portfolio component's Sustainalytics ESG Risk Rating by its respective portfolio weight. The Distribution across Sustainalytics ESG Risk levels chart shows the portfolio allocations broken into Sustainalytics' five ESG risk levels: negligible (0-10), low (10-20), medium (20-30), high (30-40) and severe (40+), providing an overview of portfolio exposure to the different ESG risk levels. Index scores are provided alongside the portfolio scores, highlighting the portfolio's ESG risk level compared to the index.

Only holdings mapped as corporates are included in the figures.

Environmental Footprint

Environmental footprint expresses the total resource consumption of the portfolio per mUSD invested. Each assessed company's footprint is calculated by normalizing resources consumed by the company's enterprise value including cash (EVIC). We aggregate these figures to portfolio level using a weighted average, multiplying each assessed portfolio constituent's footprint by its respective position weight. For comparison, index footprints are shown besides that of the portfolio. The equivalent factors that are used for comparison between the portfolio and index represent European averages and are based on third-party sources combined with own estimates. As such, the figures presented are intended for illustrative purposes and are purely an indication. Only holdings mapped as corporates are included in the figures.

SDG Impact Alignment

This distribution across SDG scores shows the portfolio weight allocated to companies with a positive, negative and neutral impact alignment with the Sustainable Development Goals (SDG) based on Robeco’s SDG Framework. The framework utilizes a three-step approach to assess a company’s impact alignment with the relevant SDGs and assign a total SDG score. The score ranges from positive to negative impact alignment with levels from high, medium or low impact alignment. This results in a 7-step scale from -3 to +3. For comparison, index figures are provided alongside that of the portfolio. Only holdings mapped as corporates are included in the figures.

Source: Robeco. Data derived from internal processes.

Engagement

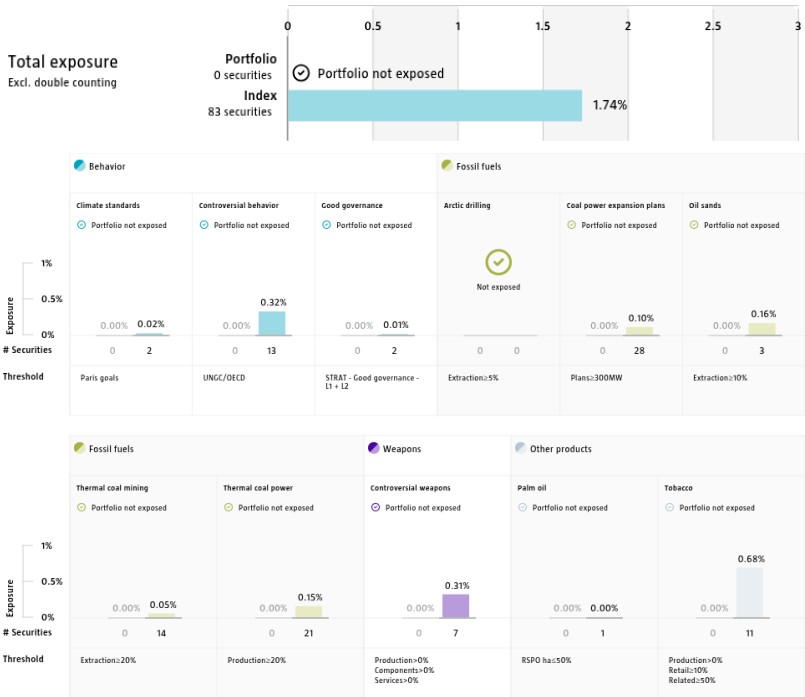

Robeco distinguishes between three types of engagement. Value Engagement focuses on long-term issues that are financially material and/or are causing adverse sustainability impacts. The themes can be broken into Environmental, Social, Governance, or Voting-related. SDG Engagement aims to drive a clear and measurable improvement in a company’s SDG contribution. Enhanced engagement is triggered by misconduct and focuses on companies severely breaching international standards. The report is based on all companies in the portfolio for which engagement activities have taken place during the past 12 months. Note that companies may be under engagement in multiple categories simultaneously. While the total portfolio exposure excludes double counting, it may not equal the sum of individual category exposures.

	Portfolio exposure	# companies engaged with	# activities with companies engaged with
Total (* excluding double counting)	40.60%	24	98
Environmental	5.94%	4	13
Social	3.61%	2	8
Governance	8.85%	4	22
Sustainable Development Goals	23.10%	14	53
Voting Related	3.65%	2	2
Enhanced	0.00%	0	0

Exclusions

The Exclusions charts display the degree of adherence to exclusion applied by Robeco. For reference, index exposures are shown beside that of the portfolio. Thresholds are based on revenues unless otherwise indicated. For more information about the exclusion policy and which level applies, please refer to the Exclusion Policy and Exclusion List available on Robeco.com.

### Investment policy

Robeco Global Multi-Thematic is an actively managed fund that invests worldwide in equities from developed and emerging countries. The selection of stocks is based on fundamental analysis. The strategy's objective is to achieve a better return than the MSCI ACWI Index. The fund invests in companies incorporating or exercising a major part of their economic activities in identified themes. These include transforming technologies, changing sociodemographic, and preserving earth. This is achieved by investing in firms that are well positioned to benefit from structural changes in the economy as well as companies contributing to solving nature-based problems, fulfilling basic societal needs and addressing inefficiencies.

The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions, proxy voting and engagement.

### Fund manager's CV

Dora Buckulickova is Lead Portfolio Manager of Robeco Fashion Engagement (2023), Portfolio Manager of Robeco Global Multi-Thematic (2024), Rolinco (2022) and member of the Thematic Investing Team. She joined Robeco in 2021. Dora holds experience as a buy-side research analyst and investment manager with Baillie Gifford for 6 years. Previously, she was a research consultant for a UK-based global impact fund, providing long-term fundamental and sustainability-focused investment research. Dora is a CFA® Charterholder and obtained her Master of Arts in Economics and Chinese from the University of Edinburgh. Marco van Lent is Portfolio Manager Robeco Global Multi-Thematic (2024), Rolinco (2013), Portfolio Manager Robeco Digital Innovations (2017) and member of the Thematic Investing team. Before 2013, he managed Robeco Infrastructure Equities. Marco joined Robeco in October 2007 to co-manage two European equity funds. He worked at Van Lanschot Asset Management to manage the Van Lanschot European Equity Fund. After the acquisition of Kempen Capital Management by Van Lanschot, he worked at Kempen Capital Management for six months to manage European equity mandates. He was Portfolio Manager European equities at Philips Investment Management in the period 1999-2005 and in the period 1996-1999 he was Portfolio Manager at Van Spaendonck Asset Management. He started his investment career in 1985 as a sell-side analyst/strategist. Marco holds a Master's in Business Economics and Finance from Tilburg University. Steef Bergakker is Portfolio Manager Robeco Global Multi-Thematic (2024), Rolinco (2020), Portfolio Manager Robeco Digital Innovations (2019) and member of the Thematic Investing team. Previously, he was trends researcher and has authored several white papers. Before that, Steef was portfolio manager of Robeco Infrastructure Equities and Robeco Hollands Bezit. Prior to rejoining Robeco in 2008, Steef held different functions at IRIS (Institute for Research and Investment Services), the former research joint venture of Robeco and Rabobank. From 1998 through 2008 he served as head of IRIS Equity Research, and before that he worked as equity analyst for eight years. Steef started his career in the investment industry at Robeco in 1990 as an analyst. He holds a Master's in Monetary Economics and Finance and Investments from Erasmus University Rotterdam.

### Fiscal product treatment

The fund is established in Luxembourg and is subject to the Luxembourg tax laws and regulations. The fund is not liable to pay any corporation, income, dividend or capital gains tax in Luxembourg. The fund is subject to an annual subscription tax ('tax d'abonnement') in Luxembourg, which amounts to 0.05% of the net asset value of the fund. This tax is included in the net asset value of the fund. The fund can in principle use the Luxembourg treaty network to partially recover any withholding tax on its income.

### Fiscal treatment of investor

The fiscal consequences of investing in this fund depend on the investor's personal situation. For private investors in the Netherlands real interest and dividend income or capital gains received on their investments are not relevant for tax purposes. Each year investors pay income tax on the value of their net assets as at 1 January if and inasmuch as such net assets exceed the investor's tax-free allowance. Any amount invested in the fund forms part of the investor's net assets. Private investors who are resident outside the Netherlands will not be taxed in the Netherlands on their investments in the fund. However, such investors may be taxed in their country of residence on any income from an investment in this fund based on the applicable national fiscal laws. Other fiscal rules apply to legal entities or professional investors. We advise investors to consult their financial or tax adviser about the tax consequences of an investment in this fund in their specific circumstances before deciding to invest in the fund.

### Sustainability images
