Performance

Based on transaction prices, the fund's return was 0.40%.

Robeco BP Global Premium Equities outperformed the MSCI World Index, with sector allocation adding to relative returns while stock selection detracted slightly. From a sector allocation perspective, a large underweight exposure to information technology added most value, followed by overweight exposure to materials and financials. Positive stock selection in industrials was offset by stock picks in consumer staples and financials. In industrials, Fuji Electric was a strong performer, rising close to 28%. On the negative side, in consumer staples, food & beverage holdings Nomad Foods, US Foods, Kerry Group and Coca-Cola Europacific Partners all had a lackluster month, while in financials, Fidelity National Information Services and UK insurer Beazley lagged. Regionally, the fund added most value in North America, while Europe and the United Kingdom detracted from relative results.

Market development

Global equity markets continued to climb higher in the holiday month of August, with value equities outperforming core and growth equities as measured by the MSCI indices. Focusing on the core MSCI World Index, the best-performing sectors were materials, healthcare, communication services and consumer discretionary. From a regional standpoint, Japan was the strongest performer.

Expectation of fund manager

Despite all the policy shifts coming out of Washington this year, with uncertainty surrounding tariffs and trade, the markets have held up relatively well. As it stands, tariffs will probably have an inflationary impact on interest rates going forward. So far, we haven't seen any expectations for earnings to come down, so if earnings growth is stable and interest rates don't get away from us, then the markets should perform reasonably well through the rest of the year. As always, we remain focused on selecting companies from the bottom-up that reflect Boston Partners' three-circle characteristics – attractive valuations, solid business fundamentals, and identifiable catalysts.

Top 10 largest positions

IMI PLC, Nordea Bank and BBVA entered the top ten in August, replacing JP Morgan Chase, Compagnie de Saint-Gobain and Spie.
