Management Company: Robeco Institutional Asset Management B.V.

## Objectives and investment policy

The Robeco BP US Select Opportunities Equities fund is an actively managed, Mid Cap Value fund investing in value stocks in the United States. The fund follows a singular process and philosophy, focused on attractive valuation, fundamentals and business momentum, constructing portfolios from the bottom up through fundamental analysis. The portfolio is primarily comprised of stocks with a market capitalization between \$2 billion and \$53 billion. The fund's objective is to outperform the Russell Mid Cap Value index over a full market cycle.

The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region based exclusions, proxy voting and engagement.

Investments are predominantly made in securities denominated in US dollars. The subfund is denominated in Swiss Franc. The subfund also uses derivatives to hedge to the Swiss Franc.

Benchmark: Russell Mid Cap Value index (Gross Total Return, EUR)

The Sub-fund is actively managed. The securities selected for the Sub-fund's investment universe may be components of the Benchmark, but securities outside the Benchmark may be selected too. The investment policy is not constrained by a benchmark but the Sub-fund uses a benchmark for comparison purposes. The Portfolio Manager has discretion over the composition of the portfolio subject to the investment objectives. The Sub-fund can deviate substantially from the issuer, country and sector weightings of the benchmark. There are no restrictions on the deviation from the benchmark. The benchmark is a broad market weighted index that is not consistent with the environmental, social and governance characteristics promoted by the Sub-fund.

This share class of the fund does not distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 5 years.
