

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Robeco QI Global SDG & Climate Conservative Equities D EUR (LU1520981892)

This fund is a subfund of Robeco Capital Growth Funds, SICAV

Management Company: Robeco Institutional Asset Management B.V.

Objectives and investment policy

Robeco QI Global SDG & Climate Conservative Equities is an actively managed fund that invests in stocks of companies in developed and emerging countries across the world that advance the United Nations Sustainable Development Goals (SDGs) and pursue a carbon reduction objective. The selection of these stocks is based on a quantitative model. The fund aims to achieve long-term returns greater than equity markets with lower downside risk over the full investment cycle, whilst still controlling relative risk through the applications of limits (on countries and sectors) to the extent of deviation from the Benchmark. The selected low-risk stocks are characterized by high dividend yields, attractive valuation, strong momentum and positive analyst revisions as well. This results in a diversified, low turnover portfolio of defensive stocks aiming to achieve stable equity returns and high income.

The fund has sustainable investment as its objective within the meaning of Article 9 of the European Sustainable Finance Disclosure Regulation. The fund invests in companies whose business models and operational practices are aligned with targets defined by the 17 SDGs. The fund aims to reduce the carbon footprint of the portfolio aligned with the MSCI All Country World Climate Paris Aligned Index and thereby contribute towards the goals of the Paris agreement to keep the maximum global temperature rise well-below 2°C. The fund integrates ESG (Environmental, Social and Governance) factors in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based exclusions in line with Article 12 of the EU regulation on Climate Transition Benchmarks and region-based exclusions, and proxy voting.

Currency risk will not be hedged. Exchange-rate fluctuations will therefore directly affect the

fund's share price.

Benchmark: MSCI All Country World Index (Net Return, EUR)

The Sub-fund is actively managed and uses the Benchmark for asset allocation purposes. The securities selected for the Sub-fund's investment universe may be components of the Benchmark, but securities outside the Benchmark may be selected too. The Sub-fund can deviate substantially from the weightings of the Benchmark. The Management Company has discretion over the composition of the portfolio subject to the investment objectives. The Sub-fund aims to achieve returns equal to, or greater than, those on the Benchmark with lower expected downside risk, whilst still controlling relative risk through the applications of limits (on countries and sectors) to the extent of deviation from the Benchmark. The Benchmark is a broad market weighted index that is not consistent with the sustainable investment objectives pursued by the Sub-fund. The Sub-fund will use the MSCI All Country World EU PAB Overlay Index to monitor the carbon profile of the Sub-fund in line with the Paris Agreement requirements on greenhouse gas emission reduction.

This share class of the fund does not distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Lower risk - Typically lower rewards

Higher risk - Typically higher rewards

Historical data, such as is used in calculating the synthetic indicator, is not a reliable indication of the future risk profile. The risk and reward category shown is not guaranteed to remain unchanged, the categorization may shift over time. The lowest category does not mean a risk-free investment.

This fund has a lower volatility compared to other equity funds with similar investment strategy as it specifically invests in low-volatile shares. The fund may use financial derivatives.

The following data are deemed material for this fund, and are not (adequately) reflected by the indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss.

Counterparty risk is reduced via the exchange of collateral.

- The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets.
- The fund invests or may invest in China A-shares. Investing in China A-shares carries increased risk, most notably liquidity, regulatory, quota, custody and broker risks.
- The fund is managed using quantitative models. Materialisation of the model risk may be detrimental to fund performance.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

Charges

One-off charges taken before or after you invest

Entry charge*	5.00%
Switch charge	1.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charges	1.01%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The charges are used to pay the costs of running the fund, including the costs of marketing and distributing. The charges reduce the potential growth of the investment.

The entry and exit charges shown are the maximum figures. Contact your financial advisor or distributor to find out the actual entry or exit charge.

*Dependent on the distribution channel, it is possible that additional costs are charged by the distributor.

Ongoing charges are based on the expenses for the last calendar year ended 31-12-2024. This figure may vary from year to year and does not include performance fees or transaction costs, except in the case of exit/entry charges paid by the UCITS when buying or selling units in another collective investment undertaking. For funds launched or for fee changes that are implemented during the current calendar year, the ongoing charge is estimated.

For more information on fees, charges and performance fee calculation methods we refer to section Fees and Expenses within the prospectus, available on the website: www.robeco.com

Past performance

Currency: EUR

1st quotation date: 13-12-2016

Past performance is of limited value as a guide to future performance. The ongoing charges are included in the calculation of past performance; excluded are the entry and exit charge.

Practical information

- The depositary of the SICAV is J.P. Morgan SE.
- This key investor information document describes a subfund of the SICAV, the prospectus and periodic reports are prepared for the entire SICAV.
- The English prospectus, and the (semi) annual report and the details of the remuneration policy of the management company can be obtained free of charge on www.robeco.com/riam. The website also publishes the latest prices and other information.
- The assets and liabilities of each subfund are segregated by law. Shares of one subfund may be exchanged with another subfund of the SICAV as further described in the prospectus. The SICAV may offer other share classes of the subfund. Information on these share classes is available in the prospectus under Appendix I.
- The tax legislation of the SICAV's home Member State may have an impact on the personal tax position of the investor.
- Robeco Institutional Asset Management B.V. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus of the SICAV.
