

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Robeco Dynamic Theme Machine UCITS ETF USD Acc (IE000VG2WCW5)

This fund is a subfund of Robeco UCITS, ICAV

Management Company: Robeco Institutional Asset Management B.V.

Objectives and investment policy

Robeco Dynamic Theme Machine UCITS ETF is an actively managed Sub-fund that seeks to provide exposure to attractive stocks that are exposed to emerging long-term macro-economic, technological, environmental, demographic and healthcare related themes. The Manager will select the most relevant themes and dynamically rotate through them as they evolve over time, based on the approach described below. The Fund will utilise the quantitative and qualitative investing expertise of the Manager. The Manager has discretion to select the themes that the Fund will be invested in.

The Sub-fund promotes environmental and/or social characteristics within the meaning of Article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector. The Sub-fund takes explicitly into account the contribution of a company to the United Nations Sustainable Development Goals (SDG). The Sub-fund strives for economic results, while at the same time taking into account environmental, social and governance characteristics which are further explained in the prospectus.

The Sub-fund is exposed to the exchange rate movements of the currencies in which the assets of the Sub-fund are denominated. For the management of the Sub-fund, expectations of currency returns will be taken into consideration when making country allocations/stock selection decisions.

Benchmark: MSCI World Index (Net return, USD)

The Sub-fund is actively managed and will seek to achieve its investment objective by investing primarily in a portfolio of equities, being equity and equity-related securities (namely, preferred stock, warrants, rights, claims and depositary receipts) of companies that mainly operate in developed markets, as defined by MSCI, and that are listed or traded on Regulated Markets globally.

It is generally expected that up to 90% of the Net Asset Value of the Fund will be components of the Benchmark, but stocks outside the Benchmark may also be selected. There are no restrictions on the extent to which the Fund's portfolio and performance may deviate from those of the Benchmark.

This share class of the fund does not distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Lower risk - Typically lower rewards

Higher risk - Typically higher rewards

Historical data, such as is used in calculating the synthetic indicator, is not a reliable indication of the future risk profile. The risk and reward category shown is not guaranteed to remain unchanged, the categorization may shift over time. The lowest category does not mean a risk-free investment.

The fund may use financial derivatives.

The following data are deemed material for this fund, and are not (adequately) reflected by the indicator:

- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
- The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets.
- The fund is managed using quantitative models. Materialisation of the model risk may be detrimental to fund performance.
- For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.

Charges

| One-off charges taken before or after you invest | |
|--|-------|
| Entry charge* | None |
| Switch charge | None |
| Exit charge | None |
| This is the maximum that might be taken out of your money before it is invested. | |
| Charges taken from the fund over a year | |
| Ongoing charges | 0.55% |
| Charges taken from the fund under certain specific conditions | |
| Performance fee | None |

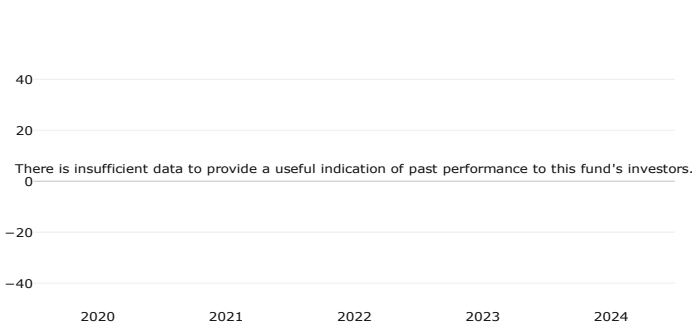

The charges are used to pay the costs of running the fund, including the costs of marketing and distributing. The charges reduce the potential growth of the investment.

The entry and exit charges shown are the maximum figures. Contact your financial advisor or distributor to find out the actual entry or exit charge.
*Dependent on the distribution channel, it is possible that additional costs are charged by the distributor.

Ongoing charges are based on the expenses for the last calendar year ended 31-12-2024. This figure may vary from year to year and does not include performance fees or transaction costs, except in the case of exit/entry charges paid by the UCITS when buying or selling units in another collective investment undertaking. For funds launched or for fee changes that are implemented during the current calendar year, the ongoing charge is estimated.

For more information on fees, charges and performance fee calculation methods we refer to section Fees and Expenses within the prospectus, available on the website: www.robeco.com

Past performance

Practical information

- The depositary of the ICAV is J.P. Morgan SE - Dublin Branch.
- This key investor information document describes a subfund of the ICAV, the prospectus and periodic reports are prepared for the entire ICAV.
